The purpose of this Technical Order (TO) is to provide procedures and guidelines for periodic testing of personnel safety and rescue type equipment, for the most part found in FSG 4200. This includes industrial safety belts and straps, industrial type safety harnesses, restraint harness (ground use), safety nets and ropes, and rescue seats and baskets. TO 00-25-245, 28 February 2003 is supplemented as follows.

**SUMMARY OF REVISIONS**

This document is substantially revised and must be completely reviewed.

2.7. **NOTE.** The Wing or Group commander may direct that a local form or log be used to document inspections. ANG units may elect to use automated data products for inspection scheduling and control.
